

## IFIP TC-6 Annual Report

### Comité suisse pour l'IFIP

Title: Annual Report IFIP TC 6  
Author : Harry Rudin (hrudin@smile.ch)  
Period: 1.1.10 – 31.12.10  
Date : January 6, 2011

IFIP's TC6, The Technical Committee on Communications Systems, is an active technical committee which orchestrates some twenty international conferences and workshops a year. One of the goals of TC6 is to offer its technical know-how to developing countries; to this end it organizes meetings and tutorials in developing countries and even has a working group (WG6.9) with this as its major objective. Many of this year's conferences are listed below.

The IFIP digital library continues to be a real disappointment. There are a total of 106 conferences listed. There are none for 2009 or 2010. And this from "the leading multinational, apolitical organization in Information & Communications Technologies and Sciences."

### A request

The undersigned would appreciate receiving Swiss research items for **ERCIM News** ! ERCIM News articles typically are well-ranked by Google, so this is a good opportunity to describe your research in a one- or one-and-a-half page article.

ERCIM News is also a good medium for announcing conferences to be held in Switzerland. Contributions should be sent to [hrudin@smile.ch](mailto:hrudin@smile.ch)
