IFIP - International Federation of Information Processing - is the global professional federation of societies and associations for people working in Information and Communications Technologies and Sciences. www.ifip.org

Only 14% of plastics are recycled – can tech innovation tackle the rest?

theguardian.com - The world recycles just 14% of the plastic packaging it uses. Even worse: 8m tons of plastic, much of it packaging, ends up in the oceans each year, where sea life and birds die from eating it or g...

IP3 Plans Launch of Simplified Guide to Mutual Recognition Scheme

ifipnews.org - IFIP members will be pleased to know that a Simplified Guide to IFIP IP3 Accreditation is currently being prepared and will be launched at the World Summit on the Information Society (WSIS) in Gene...

Robots could help solve social care crisis, say academics - BBC News

bbc.com - Humanoid robots, with cultural awareness and a good bedside manner, could help solve the crisis over care for the elderly, academics say. An international team is working on a £2m project to develo...

ICS Celebrates 50 years, Interviews ICS CEO Jim Friars

ifipnews.org - To mark its 50th Anniversary (Ed: Congratulations ICS!!), the Irish Computer Society (ICS) is conducting a series of interviews and events throughout 2017 that speak to its achievements as a societ...

ifipnews.org - Members of IFIP Working Group 9.10, which focuses on ICT Uses in Peace and War, will gather in Dayton Ohio later this week to discuss emerging issues and to plan activities and initiatives for the ...

If AI Can Fix Peer Review in Science, AI Can Do Anything

wired.com - Here's how science works: You have a question about some infinitesimal sliver of the universe. You form a hypothesis, test it, and eventually gather enough data to support or disprove what you thou...

Yes, the cloud will kill jobs—maybe even yours

infoworld.com - One of the first questions that I get from a new client moving to the cloud is what organizational changes it will likely go through. Although clients want to adopt cloud computing as disruptive te...
